EDUCATION

Bachelor of Technology in Computer Science and Engineering KLH (KL Deemed to be University), Hyderabad	2024 – 2028 Percentage: 95.3%
Intermediate Vignan Jr. College, Kondapur	2022 – 2024 Percentage: 98%
SSC Vidya Bharathi High School, Mancherla	2022 Percentage: 90%

PROJECTS

Hackathon Projects

- **RAMpage V2.5 – 24 Hour Hackathon (KL University)**
Worked on a Banking Systems problem statement and proposed a banking app for card-based transaction tracking with two-step verification.
- **Smart Crop Advisory System – SIH 24 Hour Hackathon**
Proposed a Smart Crop Advisory System to support small and marginal farmers by recommending suitable crops and providing farming guidance through a mobile application.

Academic Projects

- **Hotel Reservation App (Object Oriented Programming)**
Developed a Java-based hotel reservation application managing booking and customer records.
- **Solar-Powered Street Lighting System (IoT Project)**
Designed a smart solar-based street-light control system using sensors.
- **Patient Details Management System (DTI Project)**
Built a project to manage patient records with basic UI and data storage logic.
- **Movie Meter – Movie Rating Application**
Created an application that allows users to view and analyze movie ratings.
- **Huntington's Disease Prediction Using AI/ML**
Predicted Huntington's Disease using genetic features (CAG repeats) with ML models.
Used data cleaning, visualization, and feature selection on biological datasets.
Implemented Random Forest and Gradient Boosting classifiers.
Tools: Python, Pandas, Scikit-learn, Google Colab

INTERNSHIP

Social Internship (Summer) — University-organized community internship. [View Photos on LinkedIn](#)

TECHNICAL SKILLS

Programming Languages: C, Java, Python

Data Structures & Algorithms: Beginner to Intermediate – Arrays, Strings, Recursion, Sorting, Searching, Linked Lists, Stacks, Queues, Trees and Graphs (Concepts and Tracing Only)

Database: DBMS fundamentals, SQL (CRUD, Joins, Normalization)

Core CS Subjects: Operating Systems (Processes, Threads, Scheduling, Memory Management)

Web Technologies: HTML, CSS, Java (Basics of Full Stack Development)

IoT: Microcontroller basics, Sensor integration, IoT project implementation

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 AI Foundation Associate (1Z0-1122-25)
- CLE – C Certified Entry-Level Programmer

Coursera Certifications:

- Intro to Operating Systems 1: Virtualization
- Python Basics
- The Structured Query Language (SQL)
- Getting Started with Git and GitHub

AWARDS & ACHIEVEMENTS

- Achieved 1-star rating on CodeChef, solved 300+ problems, rating 1138
- Oracle Cloud Infrastructure 2025 AI Foundation Associate
- Selected for Smart India Hackathon (SIH) – 24 hr Hackathon

LANGUAGES

English, Hindi, Telugu
